FERTILIZER SPREADER

SEMBRA 1000

Sembra 1000 is a double disc fertilizer spreader distributing fertilizer, seeds and lime with a uniformity and bigger working width compared to single discs.

- /// Doble disc distribution system with variable angle blades that provide wide application range with uniformity
- /// Chassis built in bent tube, reducing weld seams for greater strength
- /// Rotomoulded deposit of virgin polyethylene with U.V protection
- /// Removable quick-connect deposit for easy equipment cleaning and maintenance
- /// Eccentric vertical agitator system that ensures uniform dosing and prevents breakage of fertilizer seeds and granules
- /// Stainless Steel Dosing Funds
- /// Uniform distribution range from 7 to 18 meters
- /// Robust SAE 90 oil-plated gearboxes with helical bevel gears

Versions:

- /// Manual, cable or hydraulic drive
- /// Lime Stirrer
- /// Side application kit for orchard
- /// Stainless steel discs and launchers

TECHNICAL SPECIFICATIONS	
Model	SEMBRA 1000
Volumetric capacity (l)	1000
Disc rotation (rpm)	720
Load capacity (kg)	1500
Weight (kg)	206
Height (mm)	1840
Lenght (mm)	1460
Width (mm)	1330
Tractor power (hp)	65

*Weight and dimensions may vary depending on the product version.
Project changes may occur without prior notice.
