DOUBLE DISC FERTILIZER SPREADER  
**SEMBRA**  
**3500 PAH**

DOUBLE DISC FERTILIZER SPREADER  
**SEMBRA**  
**3500 PAH**

Recommended for larger areas, this machine is suitable for producers who requires the most uniform distribution of fertilizers and seeds in your crop, wide working width, in addition to ensuring granule integrity due to the special horizontal stirring system.

- /// Rotomolded reservoir in virgin polyethylene with protection against ultraviolet rays, removable with system quick release for easy cleaning and maintenance.
- /// Horizontal agitator system: works at reduced rotation ensuring the flow continuous with uniformity of dosage and avoids breakage of seeds and granules the fertilizers.
- /// Hydraulic drive for opening and closing the dosing bottom.
- /// Uniform distribution range from 18 to 36 meters.
- /// Dual disc distribution system with variable angle blades.
- /// Gauge opening regulation.
- /// Articulated tandem rolling system.

TECHINICAL SPECIFICATIONS	
Model	Sembra 3500
Capacity (L)	3500
Maximum load (Kg)	3500
Weigth (Kg)	1055
Distribution Width (M)	07 to 36
Ground Clearance (mm)	575
Heigth of Discs (mm)	1040
Wheelset Opening Ajustment (mm)	1900 to 2500
Tire	10.5/80 - 18 10 canvas - Ra45
Max RPM at PTO (RPM)	540
Stirrer	Eccentric in the horizontal direction
Opening Command	Hydraulic
Tractor Power (CV)	75 to 100

Weight and dimensions may vary depending on the product version.  
 Project changes may occur without prior notice.
