# BUCKET ON THE FEET ORDEMOVEL MILKING PARLOUR PIPELINE SYSTEM

The Bucket On The Feet System is recommended for dairy farmers who seek quality, operational efficiency and hygiene, with easy installation infrastructure.

- /// Simple and easy to install infrastructure
- /// Better operative efficiency and better manpower
- /// Easy cleaning that guarantees the best health and impact on the quality of milk.
- /// Fixed mounting system with vacuum sockets to move buckets next to the cows
- /// Vacuum pump and rotor with vanes working lubricated
- /// 30 l polyethylene vacuum unit with drain valve
- /// Pneumatic pulsator with pulse 60/40
- /// 50 l polyethylene bucket with stainless steel lid
- /// 350 cc collector with 18 mm output
- /// Rubberized Incomagri liners that guarantee the comfort of the cows
- /// Gum cluster with in stainless steel cup
- /// Vacuum regulator

The Ordemovel Mobile Cart Incomagri brings efficiency and practicality for dairy.

- /// Mounted on the cart, facilitates transport and allows you to take the set to a cow or bring a cow to the set
- /// Vacuum pump with pallet rotor with lubrication system
- /// Possible to milk one or two cows simultaneously
- /// 50 l polyethylene bucket with stainless steel lid
- /// Pneumatic pulsator with pulse 60/40
- /// Rubberized Incomagri liners that guarantee the comfort of the cows
- /// 350 cc collector with 18 mm output
- /// Backup vacuum regulator
- /// Gum cluster with in stainless steel cup

The Milking Parlour Pipeline System can be installed in low, medium and high line in parlours with herringbone or tandem.

- /// Automatic discharge from the final unit to the cooler with an electronic level sensor
- /// Stainless steel fuel pump of 3000 l / h. 3/ 4hp engine
- /// Final unit of stainless steel
- /// 51 mm stainless steel cleaning tube and accessories
- /// Mounting capacity in 2x3 to 2x8 animal containers
- /// Automatic washer: washes, flushes and disinfects in a single operation without dismantling components
- /// Vacuum pump of 900 l / min of capacity
- /// 350cc milk collector
- /// Pneumatic pulsator with pulse 60/40
- /// Vacuum regulating servo 1500l / min
- /// Rechargeable leche filter

TECHNICAL SPECIFICATIONS - BUCKET ON THE FEET MILKING MACHINE			
Model	Capacity	Clusters Ordenha	Power Required
BVIN-220	220l/min	01	1 hp
BVIN-350	350l/min	03	1,5 hp
BVIN-500	500l/min	05	2 hp
BVIN-900	900l/min	12	3 hp
